Engineering  
Intern  
September 2018 - October 2019 Bahcesehir University -  
Graduate School of Natural  
and Applied Sciences  
Executive assistant  
September 2019 - Present Fiki Tech Solutions  
Remote Software Developer

## EDUCATION

2013 - 2018 Bahcesehir University -  
Faculty of Engineering and  
Natural Sciences  
Biomedical Engineering

## CERTIFICATIONS & COURSES

April 2019 - October 2019 SmartPro Computer  
Academy  
Microsoft Certified Solutions  
Developer

## PROJECTS

High-resolution microscope attachment for camera-enabled mobile phones that is capable of both brightfield and fluorescence imaging  
The project was carried out under the name of "Graduation Project" in the first semester of the senior year of the school. It was realized as a group work under the leadership of the project consultant and assistant professor Burcu Tunç. The bright field imaging of this project, which aims to obtain a high resolution microscope based on the basic rules of optic, has been successful.

Diagnosis of Alzheimer's Disease with multi-atlas approach algorithm  
The article was written in the last term of the school. This is a compilation article of an article written on an algorithm developed by evaluating MRI images for the diagnosis of Alzheimer's disease and written for evaluation and explanation from other aspects.

Puzzle Danışmanlık Hizmetleri - Web Site  
Front-end Developer
